G128

Private Mastermind of Leading Entrepreneurs & Business Leaders

G128 is a community of entrepreneurs, founders, CEO's and business owners, where each member learns from valuable experience and insights delivered in straightforward exchanges with peers from around the world.

Membership is by invitation only.

G128 provides a unique and private forum. Unlike large international gatherings or conferences sponsored by media, G128 is a place where a relatively small group of like-minded leaders can take advantage of the collective experience in the room to gain insights about leadership, management, boards, operations and global business.

G128 hosts four meetings per year in various cities globally for its members. All meetings are strictly off-the-record and closed to the press and public, allowing for an atmosphere of candid, spirited and informed discussion.

Each G128
member learns
from valuable
experience and
insights from peers.

G128

Insightful and Interactive

G128 meetings are a series of conversations among peers. With high attendance and deep engagement by members, the meetings give members the rare opportunity to exchange ideas with other business owners, network, and learn from one another in an informal atmosphere of frank dialogue. Members are not permitted to send substitutes or to be accompanied by staff.

G128 meetings are facilitated to stimulate debate and let members hear from one another on the most pressing issues that face every company, every board, and every senior management team. We look closely at questions of strategy, operations, and people, and ask our members to respond to the emerging challenges they present.

We choose our topics carefully,

identifying issues that are immediately relevant to leadership, or emerging challenges not yet on the corporate radar screen.

At our after-meeting cocktails, we continue the informal and lively networking and conversation that has become the hallmark of G128.

Because of the uniqueness of the G128, we constantly get feedback from participants telling us that they cannot find this type of high-quality, straightforward exchange with any other group.

In fact, after a recent G128 meeting, one of our members remarked,

“This is the only business group where no one is talking at you. People come here to talk with one another.”

"In my group, there are only people who want to help me with my business, as in turn, I'm helping them"

G128

Repeatable Experiences and Results

Aside from the invaluable experience, G128 also has telephone conference calls on each of the months where there is no face-to-face meeting. These calls are used to check-in with progress and assist accountability.

Our **G128 Playbook**, offers members the key learnings from each meeting, presented in a succinct format that members can readily share with their teams.

Each discussion is backed by first-hand experiences, the meetings are sure to overflow with the practical wisdom required for real-world execution. As such, our members return home energized and armed with results-oriented ideas for immediate implementation.

Membership in G128 is about both gaining a broad perspective and acquiring concrete and actionable takeaways. It is ultimately about improving a member's ability to execute and run a world-class business.

"An invaluable exchange of ideas with other Business owners."

G128 is a private, business owner-focused network of peer learning communities. Together, our members are able to run companies better through valuable connections and structured conversations among current and recent owners.

G128 offers participants new insights, actionable ideas, and connections beyond their industry groups. It enables members to counsel and interact with other

executives and business thought leaders through private, candid and informed discussion.

G128 members look at each other as resources not prospects. Members do what they can to assist each other to achieve their goals and get through any challenges.

"An invaluable
exchange of ideas
with other owners &
founders - people who
are living with the same
issues I am."

G128

"My membership was fully funded and more, from ideas gained from the very first meeting - plus the personalized focus I got from the team."
